

## List of Figures

Figure 1: ZED Stereo Camera by Stereo Labs.....	5
Figure 2: Jetson TX1 Developer Kit by Nvidia .....	5
Figure 3: Example Map Created by GMapping.....	6
Figure 4: Sample Maps Generated by eDVS .....	6
Figure 5: Mount Design 2 .....	7
Figure 6: Mount Design 3 .....	8
Figure 7: Material Density vs. Merit Score. The value merit score is inversely related to the density because of the weight limit for the Thumper .....	9
Figure 8: Merit Curve for Arm Length .....	10
Figure 9: Cost Merit Curve .....	11
Figure 10: Example 3D Map Generated by ZED Stereo Camera.....	15
Figure 11: Final Mount Design.....	17
Figure 12: Thumper Chassis .....	A-1
Figure 13: Pixhawk Autopilot.....	A-1
Figure 14: 3DR UBlox GPS + Compass Module .....	A-1
Figure 15: Arduino Uno.....	B-2
Figure 16: Raspberry Pi 3-Model B.....	B-2
Figure 17: Adafruit Motor Shield .....	B-3
Figure 18: Laser Range Finder Sensor LRG/LIDAR .....	B-3
Figure 19: HMC5883L Compass.....	B-3
Figure 20: Mouse Sensor PAW3504 .....	B-4
Figure 21: Gantt Chart for Project Schedule.....	C-1
